### Bay Area Eritrean for Democratic Change

invites you to a seminar by Mr. Kibrom Dafla, founder and former manager of a  
currency trading company) and Red Sea Corporation (a.k.a. “09”), and former  
Treasury

*We spend a lot of time analyzing what happened in the past. During this seminar, Kubrom Dafla will focus on what needs to be done in the future instead. His address will not be about the need to prepare an action plan. Rather, it will be about implementing an existing plan of action.*

Kibrom’s experience and communication skills as demonstrated on RadioErena programs as well as his background is uniquely qualified to address our issues with honest and inclusive perspective. . *His seminar will focus on how we can avert the unbearable suffering & humiliation of our people on the one hand, and the looming threat of a failed state scenario on the other.*
