

YES.. YES..

NO.. NO..

The execution of the 2017 “Program” is on the Horizon

Urgent Call

By: Ghirmai Kidane (Weddi Filippo)

Milan Italy...

Part II

Date: 07/10/2016

Although we naively defended him...

He cunningly executed his plans with his gang members

As was exclaimed by a bewildered person.... today we find ourselves betrayed when we see the heavy and great losses inflicted upon our people and country. When the ELF-PF (Eritrean Liberation Front-Popular Forces) split from ELF (Eritrean Liberation Front) we thought that it was overwhelmingly oppressed and stood by its side to strengthen and empower it until it became a great force.

We

The ELF (Eritrean Liberation Front) because of its leadership, internal unrest occurred within the organization... resulting in killing of each other of the innocent fighters. The Eritrean political struggle initiated by ELM (Eritrean Liberation Movement) known also by the names (Haraka and Mahber Shewate – Group of

Seven) was expected as its plan, to achieve Eritrean independence around the year 1963. However, due the power struggle within the armed struggle organizations, its leadership elongated the years of struggle and hardship and created divisions within the committed and devoted fighters. The group that refused to surrender to the enemy or desert the fighting and flee to exile but chose to continue the struggle; we, stood by its side and supported it to develop into a great force similar and equivalent to that of ELF. The plan was... after the growth and strengthening period to call for an all-inclusive national congress to unite all the split forces into one national force... that's to have a national organization embracing all nationalist forces.

Those today who are arrogantly claiming to be the “sole patrons and Lords’ of Eritrea, to the extent to claim that “Eritrea as a nation was created by them” and “there was no country called Eritrea” before they created it. Those were the ones crying and complaining even louder than us during the difficult times to show their love and commitment to Eritrean struggle. They were saying to us: “do not say my countrymen, folks (people from the same village or region or tribe)”... the country (Eritrea) is above all this secondary things. On the other hand, they were implementing their plan by secretly communicating with each other, planning and executing their agreed upon agenda... delving us into this difficult times, quagmire and uncertain future for our country Eritrea. Who are they? Today they are clearly identified and uncovered by all of us.

That bastard group

By shedding crocodile tears, they were able to cheat us... by acting as committed and devout struggle companions. They employed the “divide and rule” method to divide and create an atmosphere of animosity between the fighters in order to control and prevail in the organisation. We were unable to discover their cunning methods; thus, unable to learn from our mistakes. We were naïve, inattentive and made all Eritreans inattentive, which I believe, is not far from the truth.

How

This awkward organization while crying as a victim and at the same time eliminating all those who discovered and uncovered its real identity; although, we did not pay attention and contemplate about the grave consequences. These serious criminal acts happened when the organisation's strength was minimal. No one considered what might occur when it becomes stronger. This resulted for their conspiracy to be fully implemented without any objections.

Those bandits

During the long years of our armed struggle, those bandits were camouflaged and were acting as true and real fighters... and we didn't pay enough attention to their acts because we were eager and solely concentrating to gain our freedom and independence. While real and honest Eritreans were martyred.... those cowards were hidden!!! They were able to implement their plans successfully. To those Eritreans who were not martyred.... they were able to make them criminals by plots to make them participate in crimes to be held accountable and guilty at any time in the future if opposed or differed from the gangs' plans.

If meat falls down on the ground

It will attract sand from the ground (as it is said in our proverbs)... who were them? We know very well those who made friendship and fraternity with TPLF (Woyane) while hatred and animosity with ELF and they are well documented actions.

However!!!

“This plot was executed in order to bury the essence of Eritreanism... to live peacefully and in harmony in our free country. It was done purposely as it was planned in the past and still going on today.”

The Badme war!!!

In 1998 we were told by these bandits that the Badme war was because of border issues. However, from time to time, they say without paying attention that the Badme was not a border issue..... there are other reasons for that war.

Mr. (Ayte) Sebhat Nega

Sebhat Nega in his several occasions and interviews said: “Aseb is an Eritrean territory... but the Eritrean people are our people”. Why is he saying that? Based on what? What to imply and clarify? If there is anyone who can decipher his saying... is welcome to tell us.

The Badme war they created

As mentioned, the bandits from time to time reveal that the other and real reason for the war is based on history. The Eritrean people unreservedly shared and cooperated with nationalist Eritrean revolution without any reservations and presented all possible sacrifices i.e. commitment, martyrs, information etc... The Eritreans living in Ethiopia were part of this cooperation with their country’s armed struggle. However, today we reached a stage where some started to think to abandon “being Eritrean” and look for alternative identity to escape the

calamities inflicted upon us. We cannot forget the expulsion of 80,000 Eritreans living in Ethiopia with humility and inhumane ways. The objectives of the inhuman expulsion can be summed us as:

1. To dislocate and dysfunction the lives of Eritreans living in Ethiopia.
2. To control the Eritrean organizations.

Due to the plot by the two groups in order to hit and achieve their target... which can be proved by several signs and measurements. In my next message, I will tell you my call regarding the points I mentioned above.

Nice week
